

XA10 DRIVE-ON Alignment Lift

SURFACE AND RECESSED MOUNT SCISSOR LIFT
4500KG CAPACITY

NEW *XA10 scissor lift is designed with longer runways to service a variety of vehicles.*

Versatile, alignment-ready lift
services cars to light commercial trucks
- up to a 4026mm wheelbase!

Open scissor design saves space and provides greater technician access with true vertical lifting.

The World's Most Trusted Lift.™

XA10 DRIVE-ON Alignment Lift

PRODUCTIVITY and PERFORMANCE FEATURES

With 4800mm long runways, oversized slip plates and easily adjusted radius gauge pockets, the XA10 accommodates a large range of wheel-bases.

Platform Front Wheel Stops

Full base frame
easy for installation

Hydraulic levelling system by means of a patented synchronisation device assures constantly level lifting platforms regardless of weight distribution.

Surface model shown.
Recessed models available.

Automatic Rear Wheel Chocks engage when the lift is raised and release when lowered.

Mechanical locks with 18 locking positions, automatically engage and pneumatically release, ensuring maximum security when lift is in raised positions.

Easy to use adjustable spacers for radius gauges - the ultimate in wheelbase flexibility.

2100mm rear slip plate designed to accommodate a greater wheelbase range for two and four wheel alignments.

Optional Rolling Jack: RJ-X26 / RJ6000 / NRJ45GAP-AU / RJ4500AP-AU (RJ-X26 shown in the picture)

Hose cover to protect the hoses

Ajustments of lock plates are available for precise alignment work.

Optional LED Light Kit : LK-XA10-4

Control Box

Four side open control box, easy for installers to connect hydraulic fittings and hoses.

1870mm Vertical Rise

Technicians have the height to get repair work done. True up / down lift movement minimizes bay space.

Open Front and Rear Design

creates space-saving working clearance through the entire middle of lift with open access points for easy movement - front, rear and side to side walk through - for accessing multi-bay projects and tool boxes and when making wheel alignment adjustments.

VERSATILE WHEELBASE RANGE
2122 to 4026 mm for **FOUR WHEEL ALIGNMENT**

XA10 SPECIFICATIONS

Lifting Capacity	4500kg
Maximum Rise*	1870mm surface mounted
Lowered Height	280mm
Width Overall	2200 / 2270mm
Overall Length	6464mm
Runway Width	625mm
Width Between Platforms	950 / 1020mm
Runway Length	4800mm
Max. Four Wheel Alignment	4026mm
Min. Four Wheel Alignment	2122mm
Motor / Voltage	3 hp / 380 V / 50 Hz
Time of Full Rise	60 seconds
Lowering Time	40 seconds
Compressed Air Connection	6 ~ 8 Bar

ROTARY WHEEL ALIGNMENT SYSTEMS

ROTARY
WHEEL SERVICE EQUIPMENT
www.rotarywheelservice.com

Rotary wheel alignment systems offer cutting-edge technology, productivity and safety features that every shop is looking for. Alignments should be simple and that's what Rotary has done with our line of state of the art wheel alignment systems. You need equipment you can count on job after job and appreciate the revenue generating power of Rotary equipment.

Any alignment system should provide feedback of the vehicle's tire position relative to the center line of the car. Rotary's wheel alignment equipment provides this analysis faster and easier than other comparable equipment thanks to our patented clamping systems, measuring heads and cameras. Take the mystery out of alignment and take back the profits that have been falling through the cracks.

Rotary's aligner consoles are portable and can be positioned anywhere for the ultimate convenience. Maximize available workspace without OBSTACLES or OBSTRUCTIONS! NO MINIMUM BAY SIZE REQUIRED!
