ROTARY LIFT[®]
The World's Most Trusted Lift[™]

Mid Rise Lift XS35N

1 105 mm minimum height suitable for a wide range of vehicles with low chassis.

2 Independent hydraulic twin cylinder system eliminates the need for mechanical locks and compressed air while offering increased flexibility with vehicle work height.

3 Slim control box is convenient to move and saves space, control panel is easy to operate.

4 Low limit switch prevents the lift from damage and ensures safety.

5 A set of four rubber adaptor pads are used for vehicle contact.

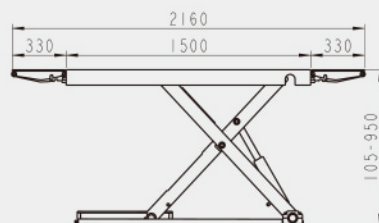

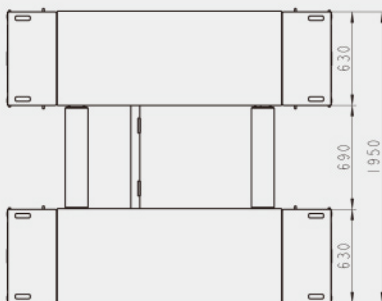

6 Optional high strength cross bars can help serve a wider range of vehicles with short track widths.

7 Optional mobility kit offers convenient movement at work.
